

After heavy use on weathered metal objects, and after five more weeks of daily exposure to tap water, the steel wool treated with cilajet still shows no visible signs of rust or corrosion. The untreated – and *unused* – steel wool exposed only to water... well, see for yourself!

cilajet... immunity against almost everything!

cilajet's unique formula:

- bonds with the paint and metal surfaces
- repels dirt, tree sap, bird droppings, brake dust, water spots, etc.
- prevents against sun oxidation and fading
- helps keep your vehicle stay cleaner longer
- reduces maintenance for repeat car washings
- eliminates the need for waxing or polishing
